Green Career Day MAWIB

Session 10-6

Speaker Information:

Follow Your Passion: Careers in the Environment

Beth Fetterley and Chris Binder of the Urban Ecology Center

Discover how high school students can sample careers in the fields of environmental research, stewardship, education and management. Through an exploration of career pathways and opportunities found right in the heart of Milwaukee, this interactive workshop will inspire and inform.

Green Hammers: What is Green Construction?

Juli Kaufman of Pragmatic Construction & Tony Kearney of Northcott Neighborhood House & Chris Litzau of the Milwaukee Community Service Corps.

Realize how "green" construction methods and technologies are being currently used in Milwaukee. Case studies of completed homes in local neighborhoods will be highlighted. Juli Kaufman, Tony Kearney, and Chris Litzau will discuss their innovative model of home deconstruction, green construction and solar panel installation.

Local/Regional Food Systems

Will Allen of Growing Power

Learn how Growing Power provides hands-on training, on-the-ground demonstration, outreach and technical assistance through the development of Community Food Systems that help people grow, process, market and distribute food in a sustainable manner.

Become a Green Educator

Joe Wilson from Keep Greater Milwaukee Beautiful

Consider a career path to one of the fastest profession's today - Environmental Educator. Individuals in this area are creative, dynamic and work with people to make a difference in the way we shape the future of our natural resources. Listen how you can start preparing for a career in making this world "Greener."
